What makes the biggest difference in the LCA results?

Parameter group with the largest influence on each RAW prototype's net impact

On its own

first-order Sobol' index: the group's effect alone, without interactions

	Today				2050			
	biopol	timber	cfw	knit	biopol	timber	cfw	knit
climate change	location	design*	circularity*	location	design*	design	circularity*	design*
ozone depletion	location	design*	circularity*	location	manufacturing*	design*	circularity*	location*
particulate matter formation	design	location*	circularity*	design*	design	design*	circularity*	design*
acidification	location*	location	circularity*	design*	design	design*	circularity*	design*
freshwater eutrophication	location	location	circularity*	location	design*	design*	circularity*	design*
land use	design*	design	circularity*	design*	design*	design	circularity*	design*
water use	design	location	circularity*	location*	design	design*	circularity*	location*
mineral resources	manufacturing*	design*	circularity*	manufacturing*	manufacturing*	location*	circularity*	design*

Including interactions

total-order Sobol' index: the group's effect alone plus its interactions with other groups

	Today				2050			
	biopol	timber	cfw	knit	biopol	timber	cfw	knit
climate change	location	design	design	location	design	design	design	circularity
ozone depletion	location	design	design	location	design	design	design	location
particulate matter formation	design	design*	design	circularity*	design	design	design	circularity*
acidification	location	location	design	location	design	design	design	circularity*
freshwater eutrophication	location	location	location*	location	design	design	manufacturing*	circularity*
land use	design	design	design	circularity*	design	design	design	circularity*
water use	design	location	design	location	design	design	design	manufacturing*
mineral resources	manufacturing	design	design*	manufacturing	location	design*	design	location

design: what the product is made of

manufacturing: machines, loading, yield

circularity: lifetime, repair, end of life

location: which country's electricity

* close call: the 95 % interval of the top group overlaps that of the runner-up
