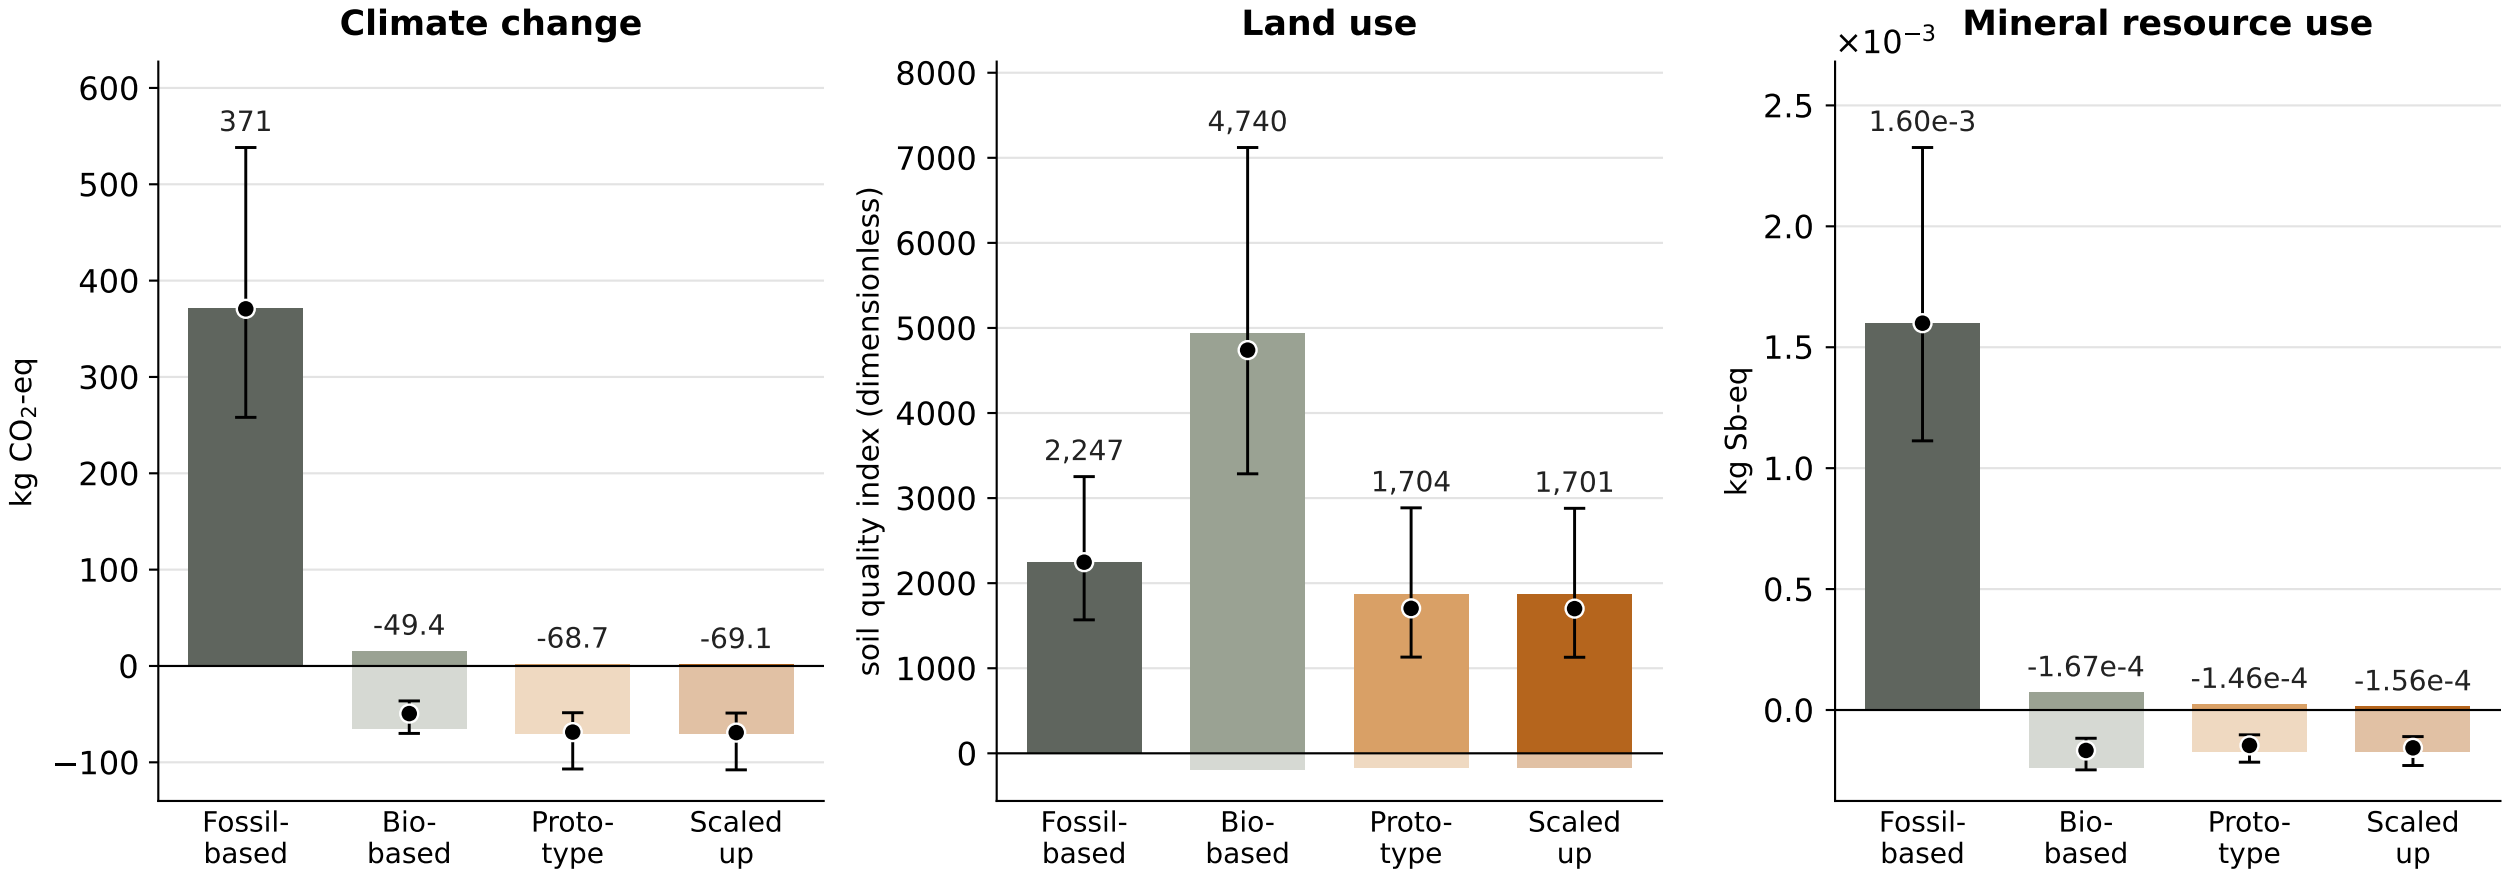
Reclaimed timber beam (beam span 6 m, 50 yr), today's background



Baselines: fossil-based: reinforced concrete beam; bio-based: glulam beam.
* Whiskers: 5-95 % of a Monte Carlo over the sheet parameters only (background at its mean, ecoinvent uncertainty not included), as in the HTML tool.

Fossil-based baseline | Bio-based baseline | Prototype | Scaled up | benefits | net impact (value shown) | 5-95 % interval*
